SUMMARY

Full Stack Developer with 2+ years of experience shipping production web, mobile-backend and AI applications with React.js, Node.js, TypeScript and Python. Sole frontend developer of a 35+ module government portal serving ~30,000 daily users that passed a VAPT security audit before go-live. Hands-on with RAG chatbots (LangChain, pgvector), computer-vision quality control (YOLO, ONNX) and OWASP Top 10 secure coding.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, Java (working knowledge)
Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, i18n (internationalization)
Backend: Node.js, Express.js, Fastify, REST APIs, JWT authentication, BullMQ, FastAPI, Flask, SQLAlchemy, Spring Boot (API integration)
Databases: PostgreSQL, pgvector, MySQL, MongoDB, Redis, Firebase
AI and Computer Vision: Generative AI, RAG, LangChain, OpenAI API, Embeddings, Prompt Engineering, Vision-Language Models, YOLO, ONNX, Ollama, Claude Code
DevOps and Cloud: AWS (EC2, S3), Docker, Nginx, Jenkins, GitHub Actions, CI/CD, PM2, Shell scripting, Git, GitHub
Testing and Security: Pytest, Vitest, Postman, Burp Suite, OWASP Top 10, VAPT
Practices: Agile/Scrum, Code Review, Monorepo, PRD Documentation

PROFESSIONAL EXPERIENCE

Software Developer | Pure Technology, Pune **Nov 2024 – Present**

PCDA(O) Pune Officers' Portal – legacy modernization, Principal Controller of Defence Accounts (Officers)

- Sole developer of the 35+ module React.js frontend (EDP Manager dashboard, requisition tracking, SOA delivery, grievances) serving ~30,000 daily users, integrated with Spring Boot REST APIs.
- Rebuilt the portal used by Army officers across India for TA/DA claims, travel requisitions, SOA, Form 16 and IT declarations, replacing a CodeIgniter (PHP) site vulnerable to SQL injection, CSRF and session hijacking.
- Built to OWASP Top 10 standards; passed a government security audit, including VAPT, before go-live.

Bridgestone Highway Heroes Network – truck-driver welfare app for Android and iOS

- Built the Node.js (Fastify) REST APIs for the user and admin apps, BullMQ + Redis background jobs and the React.js admin web app in a monorepo, following OWASP Top 10 secure-coding practices.
- Developed a document-based RAG chatbot with LangChain, OpenAI text-embedding-3-small and PostgreSQL pgvector, with automatic English-to-Hindi/Marathi/Tamil translation using GPT-4.1-mini.
- Managed the Google Play and App Store releases of the four-language Flutter app; ~1,000 users to date.

Exhaust Technology – camera-based quality-control (QC) platform

- Built the Python FastAPI platform (SQLAlchemy, Alembic, Pydantic) that guides operators through 18 exhaust inspection positions with a mobile camera, as a backup to the plant's robotic-arm camera station.
- Implemented two detection modes: a trained YOLO model on ONNX (150–850 ms inference) and the Qwen2.5-VL vision-language model via Ollama (2–4 s).
- Moved model training into the web app: users upload image ZIPs, set epochs and resolution, and manage OK / NOT-OK parts for retraining.

Full Stack Developer Intern | Osumare Marketing Solutions, Pune **Jul 2024 – Nov 2024**

- Built MERN-stack (MongoDB, Express.js, React.js, Node.js) features with Tailwind CSS; deployed to AWS EC2 and S3 using Docker and Jenkins.

Director | Innovhub Systems Pvt. Ltd., Karad **Oct 2021 – Oct 2023**

- Led 3D-printer R&D and a 3D-printing service delivering parts to client specifications; handled client discussions and requirements gathering.
- Managed the spare-parts e-commerce business and built the A3DXYZ and Spare3D websites.

Freelance Full Stack Developer (Part-time, Remote) | Spellsys Technologies **Feb 2022 – Feb 2023**

- Built client websites with React.js, Node.js, MySQL and WordPress alongside the Innovhub role; increased one client's traffic by 20% through SEO.

EDUCATION

B.Sc. Computer Science | Sir Parshurambhau College, Pune **2017 – 2020**

CERTIFICATIONS AND LANGUAGES

Certifications: Claude 101, Anthropic (2026) | NodeJS: The Complete Guide, Udemy (2024) | React: The Complete Guide, Udemy (2023)
Languages: English, Hindi, Marathi
